

Social Enterprise

Social Enterprises are businesses that trade to tackle social problems and improve communities, people's life chances, or the environment. We sell goods and services in the open market, reinvest our profits back into the business or the local community.

Orchardville has a proven track record of providing training and employment opportunities to adults with a learning disability and autistic spectrum condition. By creating viable, real work environments, hundreds of our students have been supported to enter the world of work through our Employability Hubs.

When we profit, society profits.
